GERRY AND KEITH ARE THE EGG CHAMPIONS

The Outdoor Egg Shoot

The outdoor Egg Shoot was held on Easter Sunday, the weather was blustery but at least it stayed dry for us.

We had the largest entry for at least three years, with probably the most competitors going through to Stage Two.

We thought we would run out of chicken eggs for Stage One but the competitors did us a favour with just enough missing the egg to get us through the competition!

Stage Two was easier than last year, we used Minstrals as the target instead of the Smarties from last year. Still nobody actually hit one though.

The nearest was about a quarter inch away, fired by Gerry who won a chocolate Easter Egg for his skills.

We won't mention the competitor who arrived at 200 yards with his .22LR rifle or the competitor who finally managed to find a good load for his 223 that gave a .3 MOA group only to not have a zero at 200 yards!

The Indoor Egg Shoot

We put out a lot of targets on the indoor range for the 25 yard Egg Shoot but only had a few handed in. There was some confusion as it wasn't made completely clear that only the first card shot was to count, especially as the winner with 80 points was the Competition Secretary!

Watch this space for details of the Bug Shoot again to be shot at 25 and 200 yards
