Club Event 25-July-2010

The Great Fly Shoot

The rain held off and we had 21 shooters try their hand at hitting the ten flies on the target at 200 yards.

A mix of results on a difficult target with the winner being Keith. After counting out wing and leg hits with the most body hits deciding the winner.

Some cards were not handed in but all was not lost though, as one torn up card was rescued and the jigsaw put back together for scoring!

A special mention for Andy Y who shot the card with a .22LR Martini with open sights, and got two hits. The rest of us couldn't see the flies with open sights, let alone hit them!

Next time it'll be shooting ants off crossed sticks.
