## Club Event 6-June-2010

### 50 m Semi Auto Benchrest Competition

With only 5 minutes to fire some warming shots and a quick zero, then a group of 10 there was little time to hang around.

Most managed a tight group, but with one or two flyers. But with the shortest barrel and cheapest scope Jim managed to get the smallest group – using the most expensive ammunition (Tenex)

Keith and Dave were just behind.
