## Club Event 14-Feb-2010

### STEEL PLATE SHOOT

The second club event of the year gave Members and Probationers another taste of competition conditions. A variety of methods were used, some going for the fastest time others slower and more precise plus a combination of both.

Competitors were allowed to rest their elbows for the first run then shoot again standing unsupported. 12 rounds and 12 plates to hit so no margin for error and a magazine change No re-entry permitted, just one run at each stage was allowed.

In the rested stage Marianne was one of the first to shoot, knocking all 12 down and set the time to beat – and no one came close!
