

# EVENT REPORT

Timed & Precision 1, Twyford, 17 April 2011

The Timed and Precision1 competition was well attended with shooters in each of the categories'.

The competition results were also entered into the Fermoy Rifle Cyber shoot for those that had registered with that club. (see below)

With 16 shooters we could have entered five teams but regrettably only seven members registered in time so we only had two teams.

We had the usual reasons for poor scores,

The comp officer kept snagging his shotgun on his coat, Jim didn't have enough of the right ammo for his revolver, Jason's ammo wouldn't feed in his Marlin, I've never shot this before - straight out of the Gallery Rifle Book of Reason for Dropping a Shot!

However some did well and shot personal best scores – Tim with his shotgun and Marianne in C-F gallery rifle with a 299. There may have been more PBs but many were disappointed even Rob H even though he won both rifle events!

Dave M mistook his rifle for a pistol. Well he must have done as he used the score card for Long Barrel

Pistol but we're generous here so we put his score against the rifle. Tim did similar using the score card for LBR for his LBP. They must believe in clairvoyancey!

Hard luck Dad

If Keith had not beaten Tim in the C-F match it would have been a complete whitewash for the three Dads being beaten by sons and daughter.

Tim on his way to a PB

With great weather and a lot of shooters we hope everyone enjoyed themselves.

Next week the Great Egg Shoot, we'll see you there.
