Bowling Pin Shoot

This was held on Sunday 13 January. It was one of last year's competitions that was postponed, but as we wanted a winner for the AGM it was slotted in for this month.

With twenty entrants all shooting ten pins twice the competition lasted longer than expected.

Many shooters were plagued with stoppages probably as the temperature was hovering around zero and the timings reflected this with far longer times than usual to take down ten pins.

Ben decided to shoot the comp with his .45 underlever which proved a mistake as his rifle had a total seizure with a magazine full of rounds! The Competition Officer has decided to introduce a new rule for all future comps – anyone who ejects a hot empty down the front of his shirt will be instantly disqualified!

Well sit on the other side of the table.

Rob had no problems, but the rifle just wouldn't work for Siobhan earlier.

Dan suggested that we use a sundial to time him when we do this again.

Allan takes his turn resetting the pins

Jim was the only shooter to manage a clear run without a miss or stoppage.
