Club Championship Part 1

The weather stayed dry but with some wind for the first part of the Club Championship.

Shot at 200 yards with any rifle 12 people tried their hand at the comp which comprised three stages; deliberate, rapid and snap shoot with ten rounds being fired on each stage.

As in previous years nobody got all of their shots on the scoring area and very few shooters got all of their shots off. Still, they're not meant to, it's the way the competition is designed!

Jim S did very well with only one shot off the scoring area, Chris was not far behind.

Some others had problems with rifles - Pete had two light strikes and did well to catch up, and Paul struggled too with the bolt jamming closed.

Dave was using a wooden rest that kept jumping back when he fired. He didn't have his bipod and blamed Jim for not bringing it but he could have borrowed one if he'd waited for the next detail! That's a contender for the annual excuse prize. (Jim had used it the week before and returned it to Dave but he had forgotten it)

The competition Officer will not be shooting Part 2, he's taking up tiddly winks as for the third competition in a row he pulled out as he couldn't hit the target.
