CLUB MULTI- TARGET COMPETITION

16 June

The **small-bore event** was fiercely fought for, with just one point between the first three placed. The longest timing is 15 seconds so no time for malfunctions. James was leading for a while and hoping for Jim to have a jam. Nigel gave up after losing too many points as the result of a jam. Keith shot a PB to beat son Tim, a rare occurrence. Bryan went to sleep and had two shots in the gun when the targets edged. So not everything went to plan.

It was good to see three new faces taking part. For Chris T it was his first ever competition and did not disgrace himself. John J shot too fast and Roger struggled to see the disruptive pattern targets with his iron sights. But they all did well.

Centre-Fire

Jim was pleased to score a maximum 120 with 17 X's crushing Dave yet again. And Keith beat Tim again, twice in one day! Martin looked really uncomfortable with his borrowed gun and the score proved it

LBP

Tim had his revenge and also won

Summary

A very enjoyable shoot and everyone seemed to like the new "walk down" system. Without scoring each stage it seems to flow naturally.

Jim had the pleasure of winning after having the mickey taken out of his brightly coloured Marlin – "Purple Power" rules.

And Tim wins the prize for the ugliest homemade holster – yes it was cheap but really...
