## Steel Plate shoot.

17<sup>th</sup> February

The Steels are done as two competitions, standing unsupported and sitting resting on elbows. 12 plates to knock down in the shortest time, as much ammo as you want in ten round magazines. The weather was kind, well actually it didn't rain or snow so it can't all be bad.

There were 40 members and probationers booked into the Club and 25 shooters had a go at the Steels, so it's one of the bigger attractions. This year it was done outside on B range which allowed more spectators (and barrackers!)

Congratulations to the winners, commiserations to those with plates left up.
