The Fly Shoots

15 September

6.5x47 RULE THE DAY.

It was a tie for first place at the outdoor event between Paul and Jim. Both were using the same caliber rifle and the same scope – Are they onto a winning combination?

The weather forecast was grim and may have put some less hardy souls off, but 12 Members had a go at this demanding competition and finished well before the wind and rain blew in.

Three sighting shots were allowed before attempting to hit 10 flies on a A4 target - as they are only about an inch across you needed a good scope to see them from the 200 point.

Two points were given for a hit on the body or head and one if you clipped a leg or wing.

Tim let his dad and Martin use his rifle and of course they both beat him.

Overkill – how much gear do you need to kill a few flies?

James and Sid are great rivals and although James only scored two points it was enough to beat Sid who not only put shots on targets either side of him, he failed to hit a single fly – could have done better with a rolled up newspaper!

Inside on A range there was an event for 22 rifles, standing unsupported, using the same targets. This proved just as demanding with some giving up and blazing away after a bad start.

It was another victory for Rob F, who is certainly a force to be reckoned with.

Congratulations to the winners

James and Sid took it very seriously

That looks a long way!

Nigel was steady with his new bipod
