Military Rifle Competition

17 August

This was 10 shots at 100m then 20 shots from the 200 point at a full size disruptive pattern target – we have now used up all the old Fig11 targets.

The competition was fierce and scores unbelievably close, with just seven points separating the top five shooters.

Congratulations to Paul – victor by one point, but that is all it needs, and I expect Nigel is regretting the flock of 2's he got at 200.
