## Mini McQueen

9<sup>th</sup> February

The entry numbers were good, everyone enjoyed themselves despite some barracking about target rifles being used, butts being rested on the floor and the use of bench rests!

This event was shot at 50m, with 10 exposures of 3 seconds and 7 seconds away, one shot on each target after sighting in

Kev was taking part in his first competition and broke tradition by NOT beating the owner of the rifle he borrowed – claiming he did not like the trigger. Still only a Probationer and already has his excuses ready!

Jim gave Dave the first pint of the season – his excuse was the rifle had only just been fixed and not zeroed at 50m. At least it went bag – first time since October!

In the usual “Mates” challenge, much to his delight Gavin crushed Dan, James and Sid (Is that 3 pints you won?)

The Competition Officers request to see a disabled badge if you wanted to use the bench nearly had him walking home though! (Only ‘cos he beat you)

Nigel, who had been RO’ing all morning calmly strolled onto the range, laid out his gear and shot on the last detail and put down the winning score.
