## Timed and Precision 1 6 April

Today saw fourteen competitors enter the Timed and Precision 1 shoots for Smallbore, Centrefire, Long Barrel Revolver and Long Barrel Pistol, for three and a half hours of shooting.

It was the best participation so far this year, even with some not so great weather, and we managed to tempt some probationers who have never shot the competition before and they accounted for themselves very well.

The usual scenario of magazines not feeding, rounds jamming, scopes wonky and eyes skewiff caused a few dropped points plus a late shot by one of the more experienced shots cost him an eight (Jim). But nevertheless some managed to overcome the difficulties and shot personal best scores.

The competition officer didn't bring the score sheets (Dad didn't remind him) hence his somewhat foul mood as he was feeling harassed. It didn't help when a can of Coke got spilt over the make shift score sheets and then the wind picked up and blew them all down range! Whoops!

He now agrees (finally) with his Dad that doing running competitions and shooting don't always mix!

In the Small-bore Rob looked like he was going to repeat last year's performance and beat Jim by one point but buckled under pressure and blew it.

Nigel shot a 300 maximum for the first time, just when it mattered to win the Centre-fire. Bryan also shot a PB.

With others having problems with their LBRs Jim only had to have 30 rounds scoring to win – not the best way.

Tim was downhearted and not going to bother shooting his LBR then changed his mind only to win the event.
