CHRISTMAS FUN SHOOT IN AID OF THE

AIR AMBULANCE SERVICE

Following the tremendous support we had for this worthy course last year we decided to support them again at our annual fun shoot. It incorporated a Family and Friends day so members were able to bring along guests to join in.

There were four events for all to try their out their skills.

MOVING TARGETS

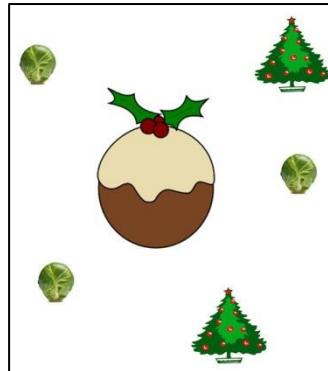

This was a new event and it proved a popular attraction. Set up on A range, a continuous row of two inch disc targets at 35m moving at a steady pace to be knocked over. Each shooter had 10 shots and there was a tie for first place between Rob and Phil. Rob won the tie-break comfortably.

CARROT SHOOT

This old favourite where competitors have to nibble away a suspended carrot by shooting at it must have been more difficult in the wind, as only

one person thought their effort was good enough to hand in! Lee said his was smaller than the winner, but it was so small he couldn't find it.

CHRISTMAS PUDDING SHOOT

The A4 targets were on the turning targets.

The pudding scored 2, the Tree scored 5 and a Brussels sprout was worth 10 points.

The idea was that the targets would face for four seconds 10 times and one shot to be fired

from the standing "ready" position.

However- this did not happen. Some decided to shoot rested and even sitting using a bipod! Was this wrong? Well certainly not in the Christmas spirit! The scores were allowed to stand but not after a lot of grumbling from Jim.

SPEED SHOOT

Rob shot second after Jim had set him a score of 30 to beat. There were a mixture of 34 plates, pins, bobbins and discs to knockdown of break in one minute.

The scores were all very close around 29 or 30 until Dave snuck into the lead with 31 to win.
