THE GRANET

18 October

SCORES

A nice easy competition, three second exposures with thirty exposures in all. Shot in strings or five. What could go wrong? Not a lot apart from missing the target.

The comp was shot over three different days instead of just on the Sunday as some who wanted to shoot it couldn't make the Sunday – the comp officer must be getting soft.

There's an element of surprise concerning two competitors actually hitting the target as they certainly couldn't see the bit in the e mail notice saying that the competition was for "ANY RIMFIRE RIFLE" as they shot it with centre-fire under lever! They can remain anonymous but not their scores.

Martin obviously didn't read the comp details either as he did every exposure as a double tap. Saved time but didn't do anything for his score.

Nigel's score was especially good as he lost two rounds due to a jam; it would probably have been a winner with all shots on.

Congratulations and well done to Ian for his win.
