## Steel Plates Competition

8 February

Steel Plates  
Unsupported

### A clean sweep for Rob

Another well attended competition albeit in fits and start due to the Air Ambulance presentation.

A couple of new faces near the top of the board but once again the fast fire champion was Rob F. At least he got the right range and distance this week!

There were 12 steel discs to knock down with magazines of ten, so a reload was needed and the ability to count up to nine – not easy in the heat of the moment.

Each competitor had two runs unsupported with just the fastest counting.

The usual round of jams slowed up a lot of people, waxed ammo doesn't like the cold weather we shot in!

The next comp is the America Cup, a nice easy shoot. Yeah.
