# Multi Target 7<sup>th</sup> June

The Multi Target comp was held on Sunday 7 June with a good participation in small-bore, centre-fire and LBP but only one LBR entrant.

The weather was kind, with lots of sunshine if a bit chilly to start with; probably what hatched so many shooters!

Lots of barracking from the mob behind provided encouragement for those on the firing line plus some very helpful advice to Phil was ignored for some reason. Maybe he didn't believe it would aid his shooting performance?

There were some good scores from some of the newer members; the old guard will have to up their game a bit if they want to stay on top of the board.

Some of the under-lever shooters were a touch slow with rounds going past the target as it turned away plus the odd safety catch left on for the Ruger shooters. Jason had big problems with ammo not wanting to feed in his under-lever.

Ian did OK for his first attempt at this event with a CF, it could have been better except for two late shots.

Jim was complaining that Martin had cross shot and made him laugh causing him to drop two shots into the 4 ring, he was lucky we took the lowest three extra shots off his score and believed they were Martins not his! Dave H declined to shoot as it would have meant buying Jim a pint

The Deputy Under Assistant Competition Officer much appreciated the clean up crew who pick up his empty 357 brass, he didn't loses a single case. It's just a shame they wouldn't carry his gun for him between firing points.
