McQueen Competition

21 August

Despite a poor start it stayed dry for the most part with a bit of a breeze to favour those with the bigger calibres. Communication between the firing point and target operator were a bit hit and miss initially, with lots of shouting but it worked in the end, even though Dave managed to blame Jim for him facing the targets too soon and not winning

The Competition Officer increased the sighting shots from two to five although it may have had more to do with the fact that he hadn't been able to get out to check the zero on his rifle rather than his unbridled generosity.

This was followed by ten shots, one at each three second exposure.

A mix of scores with some not as good as they were claimed they were going to be prior to lying down to shoot (Phil!!)

As usual Lynsey beat James.

Martin came bottom of the score sheet. However as he shot a military rifle with open sights using a block of wobbly wood as a shooting rest he did well, especially with one shot smack in the middle.
