Black Powder Pistol Precision Competition

This competition was supposed to be shot on Sunday 6 March but Nigel who was competing stood in as an RO so couldn't shoot. The Competition Officer said he shoot it on Wednesday 9.

Come Wednesday Nigel had to teach a probationer how to use the under lever and another member how to use a black powder pistol so still didn't get to shoot again. He finally managed it today Sunday 13.

Just as well really as he won it!

The first Sunday was cold and damp and saw some competitors getting a lot of "fails to ignite", well that was one of Steve's excuses.

Final scores:

Nigel W	91
Frank U	85
Steve J	55
Steve F	Failed to ignite!

Black Powder Timed and Precision 1

Jim S ran this competition as RO at 1200 hours, with two competitors trying their hand.

Again ignition failures caused problems, Steve having a total failure in one string of six shots. However he did manage to keep them mostly in the middle, unlike Frank who did ask if we could hold it in a warmer drier time of the year!

Final scores were:

Steve J	197
Frank U	131

Congratulations to Steve on winning his first club competition
