## THE GRANET COMPETITION

16 October

This competition was held for .22 rimfire and under-lever centrefire, with 9 entries for .22 and 6 for under-lever.

We took up the first three lanes on a very crowded A Range and generally slowed everybody up as the Granet is 30 rounds shot in strings of 5 rounds so the others had to wait for us to finish before doing a target change.

The competition is 5 exposures of 3 seconds with a 7 second away time, firing 1 round at each exposure all at 25m. Nice and easy with nothing complicated to remember just shoot every time the target appears!

There were a few comments about it being hard but that was from some who only do Timed and Precision 1 dancing around the range.

Carol C was shooting her first competition using a club rifle and left with a big smile on her face after beating some others using far more expensive kit.

Jeff R shot his .22 and only found out after that he could have used his lever release 9mm. He was told he would have won his class as he's the only person in the club with a lever release 9mm!

Congratulations to the winners

Mmm, not as easy as I thought

Phil was a bit too relaxed before he shot
