RAPID FIRE RIFLE

21 February.

Shot on A Range using the turning targets the competition was:

5 rounds in 150 seconds then repeat

5 rounds in 20 seconds then repeat

5 rounds in 10 seconds then repeat

Nineteen shooters tried their hand (luck) with varying success and various excuses for failure:

I zeroed this at 50 yards

I zeroed it with a bipod on.

The targets are too close together I'm worried about cross shooting.

Someone was fiddling with my scope all last weekend

And the most honest from Dan :- What a crappy shoot! 😊

Siobhan did well despite losing four shots to a Ruger jam.

The Comp Officer ran the first detail then cleared off leaving the DUUACO to run the rest. He was muttering something about trying Martin's new Schmidt Rubin. When he did come back he was complaining about how the turners were being run. Low and behold he had the same problems!

Congratulations to Phil on a fine win

Look out for the next competition.

Keith M DUUACO

As the last to shoot and shooting on his own Jim took some heckling, maybe why he was beaten by Phil.
