TIMED & PRECISION 1 COMPETITION

17 April

Initially it was to be held on B Range but due to the number of probable competitors it was decided to use C Range to get all shooters through in a reasonable time.

The decision proved right as there were 19 competitors shooting five competitions, the details started at 1000 hours and didn't finish until nearly 1300 hours. It must have been the bright sunshine that hatched them all out of A Range. At least it meant the two ROs on A Range had very little to do!

There were some good scores, particularly on the centre-fire where the X count had to be used to separate the top three. Jim did well to win after his birthday celebrations the night before. Phil really should learn not to tell Jim how many he'd scored, as that's like poking the sleeping tiger!

It was great that Bryan and Phil shot their first competition maximum. Siobhan used Dave's under lever for the first time and beat quite a few.

There was a good showing of LBPs with Tim taking the honors'. It was Phil's first time and several misses put him at the bottom.

The next competition is the Military Rifle on the 15 May, a bit of a gap, but Mattersey Ten is on the 1 May so if you enjoyed the club event have a day out.

Congratulations to all the winners
