PRECISION .22 RIFLE

Sunday 15 and Wednesday 18 January

For some reason the Competition Officer expressed his generosity again and ran it over two sessions! Even Jim and Steve were allowed to shoot after the session as they were running parts of the session. I'm sure he's going soft now he's in middle age.

A simple competition, two sighters and ten to count on a PL14 target at 25m, shot standing. Some confusion reigned as to if the sighters were to be shot on the competition target or a separate one so either was acceptable. More detail required on the competition instructions for future shoots.
