The Mini McQueen

23 April

Scores

This was shot on the on B Range at 50m.

Five sighting shots followed by ten shots, one at each of the 10 targets shown for a 2.5 second exposure.

Any .22 rifle with any sight was permitted. Only bipods and bags under the fore end were permitted. Well that was until the Comp Officer decided to change his mind and allow benchrest front rests!

The away time for the reduced size McQueen targets was 4.3 seconds, no I don't know why the Comp Officer decided on this time but it wasn't enough for those using a single shot rifle to reload into the chamber so Peter and Gavin were down on hits. Gavin says he needs 5.5 seconds, more like 5.5 minutes!

Some shooters had low power scopes so couldn't see their fall of shot on the sighters, many thanks to Gavin for his spotting for them.

At least one person only managed to load nine shots into their magazine so that was five points gone! (Who's blushing?)

With eighteen shooters it took nearly all morning to complete the comp with Jim turning up last (again) to get another win, congratulations to Jim.
