RAPID FIRE RIFLE

Sunday 5 February

This was shot on A Range during the morning session using four firing bays on the turning targets.

A Range was very crowded and the competition made it worse, however the alternatives was to shoot it at the end of the session and risk lower participants as members might have gone home or on B Range which some other members were already using.

The competition is to shoot the following at 25m, all shot standing unsupported

- A Five rounds in 150 seconds. Then repeated.
- B Five rounds in 30 seconds. Then repeated.
- C Five rounds in 10 seconds. Then repeated.

Total possible score is 300 points. Why didn't anyone get that?

There was some good shooting on a cold day with quite a bit of banter behind the firing point, especially against those who claimed they were going to "Wipe the board" before they started. Positive frame of mind or wishful thinking?

Nigel did well to clear a stuck empty in the first stage finishing with just one second to spare. Generally everyone shot much to fast – more practice needed.

Hopefully everyone enjoyed it.

Don't forget, if you shot this comp you got points on the league table and you'll get more points the more events you enter.

Phil's first stage was very good but the quicker stages let him down.
