STEEL PLATES COMPETITION

22 January.

If there's a competition being organised please encourage others to have a go.

This competition was run on a bitterly cold B Range but at least it was dry and the cold didn't put competitors off.

The competition is actually two competitions, one shot sitting supported and one standing unsupported. Both are the same – 12 plates to be knocked over in the shortest time and with only ten rounds in a magazine there's a compulsory mag change.

It was nice to see some probationary members on the range, shooting a competition for the first time.

Supported

Time
