TIMED & PRECISION 3

Sunday 1st November

This event is specifically for LB Pistols and LB Revolvers so the number of members who could take part was limited. The course of fire seems complicated if you have not shot it before but what you have to do at each stage is called out. There are restrictions on what equipment can be used and all ammo has to be carried loose in pockets. 5min 30 sec is the maximum time allowed and it is up to the shooter when and where he uses the time. Complicated? No...

Stage one is at 10m and quick, 10 shots in 15 seconds including a reload. Easy for LBPs but not so for LBRs. Only Smithy got all 10 shots away but he had been practicing. Tim had a speedloader moment and the other Jims were just not quick enough.

After scoring stage 1 competitors shoot all the way through then score at the end.

Stage2, 25m

5 shots standing RH using the barricade then 5 shots LH.

Stage 3, 25m

5 shots kneeling then 5 sitting.

Stage4, 20m

5 shots kneeling.

Stage 5, 15m

5 shots standing in 10seconds.

Stage6, 10m

5 shots single handed then 5 shots freestyle at the small rounds.

All stages have to be completed in a total time of 5min 30sec and that includes reloading. Only Jim B ran over time but was allowed to complete the match.

Jim St was disappointed in his score so shot it again for fun but did not improve.

Jim B used his belly to hide his target

Tim and Martin were the only ones who did it with LBP which was disappointing now there are many members in the club with them. Still, it was the first time the club has held this event and it was good practice for the AAW meeting later this month.

Many thanks to Phil who ran the event expertly

Scores

Revolver

Jim Sm	225
Tim M	191
Jim St	185
Jim B	148

Pistol

Tim M	232
Martin A	157
