## TIMED AND PRECISION 1

19 March.

The weather held apart from a short drizzle period but the wind kept the temperature down.

It was a busy morning with 20 competitors who shot 36 competitions between them so a hectic session for those running the range.

Darren looked quite pleased with his late shot

Some stoppages and some misfires went towards spoiling scores plus late shots as the targets turned nearly cut the boards in half twice! But it was the first time they had shot on turning targets.

At least two shooters were happy, Bryan smashed his small-bore PB score and was placed 3<sup>rd</sup>. Paul H checked when he got home and all three of his scores were PB's and even though it had been eight years since he had shot his LBR in competition he won the event.

John beat Gavin using his gun, always a good result and Phil was getting his excuses in early but there was no need... he won both his events

Congratulations also to Tim and Jim St who won their events.

Keith M

Deputy Unpaid Under Assistant Competition Officer.

Jim St didn't do well with his scoped rifle but won the Classic event with a maximum score!

Busy time for the scorers

Phil won GRCF & GRSB

Some scoring took longer than the shooting

Paul won the LBR event

Jim was smiling until it all went wrong
