# McQueen's 21 July

## Sweet victory for Pete with a maximum score.

You can't do much better than that

18 members arrived with an impressive arsenal of rifles - some brighter and prettier than others, "Life's too short to own an ugly gun"

The event was shot from the 200 point and the targets were mounted on the turners to give 10 three second exposures. Five sighters were allowed before the start.

There were plenty of excuses being bandied about even before they shot – I've only just cobbled this load and not had chance to try it (Paul H), This is a new load and scope I've not used before (Jim S), I'm just sighting this in for Rob to beat me (Dave H).

There were some serious problems and Keith M retired with a gun that wouldn't chamber his rounds. John J struggled with his 303 Jungle Carbine with iron sights he but finished the course.

But after Pete shot on the first detail it was just a matter of who was coming second (or who was going to be the highest placed loser).

Three scorecards were not handed in – where was yours Kev?

It was so enjoyable I would not be surprised to see a repeat event later in the year

Never going to win – but great fun

Not bad – but not good enough
